Announcements

We have been suggested to provide a list of available (or to be available) SpaceWire products … This will be inserted the SEMINAR CD … provided that the following information provided by companies is made available before End of November:

- Flight / Prototype / EGSE component
- Compliance to the formal ECSS document or draft versions
- Date of availability
- Contact details
- Licensing conditions (if applicable)

Announcements

Next Working Group Meeting : initially planned for Monday 26 January 2004 but now re-scheduled week 8 in February 2004 (TBC) !

WE NEED ADDITIONAL EXPERTISE: The core SpW WG must be complemented with data systems architects.

Having a SpaceWire LOGO would be nice : please send your proposal to pierre.fabry@esa.int before 19 January 2004. **A vote will take place during next WG meeting !!! Nothing to win except celebrity!!!**

On-board Payload Data Processing section

I hope you enjoyed the Seminar !

Thank you very much for your participation !!!
