

<u>Page</u>	<u>Clause</u>	<u>Remark</u>
94	7.1.1	The last sentence in the first para “An optional mechanism...” Is unclear and when you read clauses 7.2.4/7.2.5 & 7.4.4 e they do not make it clear that this is the optional mechanism.
95	7.2.4	Uses the words “Virtual Channels” and then talks about a “transaction identifier used to identify a particular packet” Text is unclear and confusing. The APID of the CCSDS packet is used to identify particular CCSDS packets.
95	7.2.5	The words “Virtual Channels” have a specific meaning in CCSDS terminology. The meaning in terms of this document should be defined so as to avoid miss-understanding.
97	7.4.4b	CCSDS packets have a minimum size of 6 bytes, therefore the number “four” in this clause should be “nine”.
97	7.4.4c	See comment to 7.4.4b in this clause the number should be “ten”.
97/98	7.4.4e	See comments to clauses 7.2.4 & 7.2.5
